Enjoyed ice-cold, our honey-wine-parsley cocktail, brewed according to a recipe handed down from Roman monasteries, has a taste reminiscent of old sherry or port. It is also delicious hot - - stimulating as a morning drink and soothing in the evening.

**THE POSITIVE EFFECT  
OF MODERATE WINE CONSUMPTION  
IN IMPROVING RESISTANCE TO INFECTION  
HAS BEEN RECOGNIZED  
SINCE THE DAYS OF THE ROMANS**

WineMead activates the heart, muscles and glands, regulates blood pressure and has anti-inflammatory properties. It can be used as gentle alternative protection for the blood vessels and can help improve their elasticity. The natural ingredients in this honey-wine-parsley cocktail are imbued with Mother Nature's vitality. Without chemical additives.

**EVEN WINE ALONE**  
is considered to be  
the most useful drink,  
the best-tasting medicine  
and the pleasantest food

**THE ADVANTAGES OF HONEY**  
in promoting health are undisputed,  
with Vitamin C, B<sub>1</sub>, B<sub>2</sub>, B<sub>6</sub>, Biotine, pantothenic acid  
and numerous minerals and trace elements

**FRESH PARSLEY**  
contains Vitamin C and E  
and has an extremely high Provitamin A content.  
Before gladiator fights, Roman heroes were given parsley,  
which originated in the eastern Mediterranean,  
to improve their strength, reaction time and strategic thinking.
